Gault attempted to knock Smith down with a shovel, but Smith, who is a mere boy, then struck Gault a severe blow on the forehead, knocking him down. Smith disappeared and the injured man was brought to town. A physician pronounced the case fatal and it is thought that Gault cannot live.

From Washington.

By Telegraph to THE SENTINEL.

WASHINGTON, Aug. 12.—The recent action of the treasury department in reducing the force of special inspectors of foreign steam vessels to one-half the present number is due to the fact that the inspection service has diminished in about that rate since the force was originally organized by Secretary Folger.

WASHINGTON, August 12.—Secretary Bayard has received telegraphic communication from the American Consul at Guayaquil, Ecuador, saying that he had positive information that Santos had been liberated.

An appropriation of \$100,000 was made at the last session of Congress for the transportation of about forty millions in gold coin from the sub-treasury at San Francisco to the sub-treasury at New York. Owing to the high rates asked by the express companies, the Secretary of the Treasury decided to transfer coin by registered mail. So far about ten millions have been transported in this way. The money was mailed in \$100,000 packages. In view, however, of the publicity which has been given to this method of transportation, it has been deemed best to suspend further shipments of the precious metal for the present.

Mr. W. E. Curtis, who was originally appointed Secretary of the South American Commission, but who, upon the return of Reynolds to the United States, was appointed commissioner in his stead, has returned to Washington. In an interview he said: "Of all men we met in our visit to the countries south of the United States, Gen. Barrios, the late President of Guatemala, was by far the greatest. He was as great in his way as either Grant or Napoleon. He possessed all the natural gifts that tended to make a great leader, but was lacking in the advantages of education. He was one of the bravest of men. An attempt was made to assassinate him by throwing a bomb at him. It fell at his feet, and he quietly put his foot upon the fire and extinguished it, remarking as he did so, 'These people don't know enough to kill me.' In the conference, last March, between the commission and Barrios, the little 7-year-old daughter, seated upon her father's knee, acted as interpreter at this meeting. Barrios said, 'when you go back to your people tell them I am with them, and intend to become one of them. After I have accomplished the reunion of the Central American States I intend to go to New York to reside there and become a citizen.'

The first heat of the senior single scull was won by M. F. Monahan, of Albany, nine minutes, eight seconds. The second heat in the junior single scull was won by John L. Kuy, of Patterson, N. J., in 9 minutes, 53 1/2 seconds.

A Whisky Ring.

PEORIA, August 12.—A special published last evening makes serious charges against certain Peoria distillers, and discloses a second "whisky ring."

A dispatch says it is stated that some Peoria distillers have been using barrels constructed with thick staves opposite the bung. The bung stave is also made thick. The heads of the barrels, instead of being three-quarters of an inch in thickness, were half an inch. These barrels hold from a gallon to a gallon and a half more than the gauger's rod and callipers show. Some time ago, as the report goes, some whisky belonging to a large distiller was retained in the east for alleged irregularity in the barrels. The latter were tested, and were found to hold more than gauged. It is reported that several other distillers were using the same sort of barrels. Last week Revenue Agent Somerville came here quietly and spent most of his time with the distillers. Somerville summoned from Peoria a cooper named Eads, who, it is said, made certain barrels to order. Last Friday and Saturday the cooper in question was here, and was interviewed by Somerville.

They Want Him Hung.

GALVESTON, Tex., August 12.—In a suit at Long View, Hon. John W. Duncan, one of the attorneys, argued that no value should be placed upon petitions promiscuously signed by citizens. The opposing counsel and the court believed that petitions in any cause, if signed by good men, were entitled to respectful consideration. In open court was read a solemn petition praying that the court would hang their fellow-townsmen, Luke Howard, who is one of the most respectable citizens of the place. The names of all the county officers and fifty business men were signed to the petition.

The W. U. and the B. & O.

NEW YORK, August 12.—Dr. Norvin Green furnishes for publication, the remainder of the cable correspondence in regard to the alleged "deal" between the Western Union and Baltimore & Ohio. He says his reason for this is to correct the impression that the Western Union officials had represented that a deal with the Baltimore & Ohio had been made, and says that he has taken particular pains to deny such rumors. From the tone of the correspondence, negotiations between the two companies are not likely to result in a "deal."

Sensational Case.

PATERSON, N. J., August 12.—A sensational case has been brought to light by the police. Lewis Bauer, real estate agent of New York, came here two years ago with his family. Early last June Mrs. Bauer died. The alleged cause was peritonitis. Her life was insured for \$50,000 in various companies. One of the company, suspecting fraud, caused an investigation to be made. The coroner of the county exhumed the corpse at the cemetery, which had been represented as that of Mrs. Bauer, and upon close examination it was found that the remains were not those of Mrs. Bauer.

To judge by what could be learned about the consultation, Mr. Whitney is to take charge of the works, plans and tools of John Roach & Son, and to finish the cruisers. Mr. Weed is to handle the money and make the profit, if there is any, acting virtually in the capacity of the government's agent. The last theses of the series were formulated as follows: "God has power over the devils and uses their services to punish the wicked and chastise His children." The *Warsaw Times*—Gen. Reub Williams' paper—pronounces the LaPorte encampment a failure. The *Gazette* takes a suspicious interest in Marsh Wines, but the less said about him the better it is for the gentleman and the *Gazette*. No where in the coast survey report is Judge Lowry mentioned, except as chairman of the investigating committee, and THE SENTINEL defies the *Gazette* or its Washington correspondent to point to a moment of Freeman Green's official working hours that was given to Judge Lowry's service. The *Gazette* has not made a direct charge. It only hints at and skulks behind evasive questions and answers. A very excited meeting was held Monday evening by the board of trustees of west Indianapolis. The chief object of the meeting was to consider certain propositions of the Jenney Electric Light company. The company proposed to establish a manufactory of dynamos, electric apparatus and lamps in the town on condition that the town government would pay \$2,800 per year for eighteen electric lights to be supplied by itself. The street car company offered to pay \$200 of this money. The contract was to be for one year, with the privilege of two more years on the same terms, and \$2,800 was to be refunded if the factory should not be established. The matter comes up again Friday evening, but will be defeated.

"Adam, the goodliest man of men since born," still could not be called exactly enviable, for when he tilted the ground in the dewy twilight and caught a sharp of rheumatism, he had no Salvation Oil for his cure and no twenty-five cents to buy it.

UNCLE SAM'S SAFE.

The Hamilton National Bank Designated as a United States Depository.

Hon. Daniel Manning, secretary of the treasury, has designated the Hamilton National bank, of this city, as a depository for United States monies disbursed in this part of the state by agents and representatives of the government. Heretofore the money was lodged in the sub-treasury at Chicago, but the order transfers it here. The bank officers have to file \$50,000 United States bonds with the national treasury to secure the privilege, but as they have \$60,000 in bonds there already in addition to their \$200,000 bonds to secure circulation, it is only necessary to transfer \$50,000 of the sum to the treasurer for the purpose named. This is the first time on record a Fort Wayne bank has had this privilege and it is quite a note, as it is in the nature of a sub-treasury.

Going for the Coroners.

The Marion county commissioners have been, on the opinion of their attorney, cutting down the coronal bills. One item the attorney has decided against, is that of charging for two inquests on the same day. He thinks the coroners should be allowed fees for but one, and under this ruling the July account of that officers was reduced from \$195 to \$181. The coroner has submitted to several reductions of this kind, but when they aggregate \$50 or more he will begin suit for recovery in the circuit court.

The Kokomo Collectorship.

The agitation over the internal revenue collectorship for this district has at last been settled, as Mr. Kirkpatrick will give up the office to Mr. J. O. Henderson to-morrow. For some time he has said he would not give up the place without a contest, but he seems to have resigned to the inevitable.

The Canoe Club Sail.

If the weather is favorable to-morrow at Rome City, the feature of the day will be the Canoe club sailing races. These races will be had on water without fail, so as not to interfere with any bicycle races on land. IDLEWILD.

Fatal Fight Between Colored Men.

By Telegraph to THE SENTINEL.

WARREN, Ind., Aug. 12.—Yesterday afternoon two colored men, named Smith and Gault, who were employed in the construction of a ditch north of the city, became involved in a quarrel, brought about by a slight misunderstanding.

Smith down with a shovel, but Smith, who is a mere boy, then struck Gault a severe blow on the forehead, knocking him down. Smith disappeared and the injured man was brought to town. A physician pronounced the case fatal and it is thought that Gault cannot live.

From Washington.

By Telegraph to THE SENTINEL.

WASHINGTON, Aug. 12.—The recent action of the treasury department in reducing the force of special inspectors of foreign steam vessels to one-half the present number is due to the fact that the inspection service has diminished in about that ratio since the force was originally organized by Secretary Folger.

WASHINGTON, August 12.—Secretary Bayard has received telegraphic communication from the American Consul at Guayaquil, Ecuador, saying that he had positive information that Santos had been liberated.

An appropriation of \$100,000 was made at the last session of Congress for the transportation of about forty millions in gold coin from the sub-treasury at San Francisco to the sub-treasury at New York. Owing to the high rates asked by the express companies, the Secretary of the Treasury decided to transfer coin by registered mail. So far about ten millions have been transported in this way. The money was mailed in \$100,000 packages. In view, however, of the publicity which has been given to this method of transportation, it has been deemed best to suspend further shipments of the precious metal for the present.

Mr. W. F. Curtis, who was originally appointed Secretary of the South American Commission, but who, upon the return of Reynolds to the United States, was appointed commissioner in his stead, has returned to Washington. In an interview he said: "Of all men we met in our visit to the countries south of the United States, Gen. Barrios, the late President of Guatemala, was by far the greatest. He was as great in his way as either Grant or Napoleon. He possessed all the natural gifts that tended to make a great leader, but was lacking in the advantages of education. He was one of the bravest of men. An attempt was made to assassinate him by throwing a bomb at him. It fell at his feet, and he quietly put his foot upon the fire and extinguished it, remarking as he did so, 'These people don't know enough to kill me.' In the conference, last March, between the commission and Barrios, the little 7-year-old daughter, seated upon her father's knee, acted as interpreter at this meeting. Barrios said, 'when you go back to your people tell them I am with them, and intend to become one of them. After I have accomplished the reunion of the Central American States I intend to go to New York to reside there and become a citizen.'

junior single sculls; distance, one mile and a half straight away. The first heat was won by Peter Snyder, of Albany, N. Y., in nine minutes and nineteen seconds. The first heat of the senior single scull was won by M. F. Monahan, of Albany, nine minutes, eight seconds. The second heat in the junior single scull was won by John L. Kuyf, of Patterson, N. J., in 9 minutes, 53 1/2 seconds.

A Whisky Ring.

PEORIA, August 12.—A special published last evening makes serious charges against certain Peoria distillers, and discloses a second "whisky ring." A dispatch says it is stated that some Peoria distillers have been using barrels constructed with thick staves opposite the bung. The bung stave is also made thick. The heads of the barrels, instead of being three-quarters of an inch in thickness, were half an inch. These barrels hold from a gallon to a gallon and a half more than the gangers' rod and callipers show. Some time ago, as the report goes, some whisky belonging to a large distiller was retained in the cask for alleged irregularity in the barrels. The latter were tested, and were found to hold more than gauged. It is reported that several of her distillers were using the same sort of barrels. Last week Lieutenant Agent Sommerville came here quietly and spent most of his time with the distilleries. Sommerville summoned from Pekin a cooper named Lada, who, it is said, made certain barrels to order. Last Friday and Saturday the cooper in question was here, and was interviewed by Sommerville.

They Want Him Hung.

GALVESTON, Tex., August 12.—In a suit at Long View, Hon. John W. Duncan, one of the attorneys, argued that no value should be placed upon petitions promiscuously signed by citizens. The opposing counsel and the court believed that petitions in any cause, if signed by good men, were entitled to respectful consideration. In open court was read a solemn petition praying that the court would hang their fellow-townsmen, Luke Howard, who is one of the most respectable citizens of the place. The names of all the county officers and fifty business men were signed to the petition.

The W. U. and the B. & O.

NEW YORK, August 12.—Dr. Norvin Green furnishes for publication, the remainder of the cable correspondence in regard to the alleged "deal" between the Western Union and Baltimore & Ohio. He says his reason for this is to correct the impression that the Western Union officials had represented that a deal with the Baltimore & Ohio had been made, and says that he has taken particular pains to deny such rumors. From the tone of the correspondence, negotiations between the two companies are not likely to result in a "deal."

Sensational Case.

PATTERSON, N. J., August 12.—A sensational case has been brought to light by the police. Lewis Bauer, real estate agent of New York, came here two years ago with his family. Early last June Mrs. Bauer died. The alleged cause was peritonitis. Her life was insured for \$55,000 in various companies. One of the company, suspecting fraud, caused an investigation to be made. The coroner of the county examined the corpse at the cemetery, which had been represented as that of Mrs. Bauer, and upon close examination it was found that the remains were not those of Mrs. Bauer.

To judge by what could be learned about the consultation, Mr. Whitney is to take charge of the works, plans and tools of John Roach & Son, and to finish the cruiser. Mr. Wood is to handle the money and make the profit, if there is any, acting virtually in the capacity of the government's agent. THE CLOSE.

The Evangelical Lutheran Synod Concludes Its Labors.

The concluding session of synod was held yesterday morning. The last three of the series were formulated as follows: "God has power over the devil and uses their services to punish the wicked and chastise His children." "The benefit we derive from the angels should inspire us to lead a holy life. The danger that we are in from the devil should result in greater watchfulness on our part." The principal speakers were Dr. Gross, Prof. F. Zucker and Rev. Mr. Zorn. Revs. H. Dunning and A. Kamppe were appointed a committee to revise the treasurer's books. Dr. Niemann, on behalf of his congregation in Cleveland, extended an invitation to the synod for its next annual session to be held there, and it was accepted, the time being fixed for the first Wednesday in August, 1886.

Mrs. Cass Hunter.
Several new members of the council
made their maiden speeches last night.
They were creditable, too.
The artisan well engine collapsed last
evening and the reporters of morning
papers had to hit the cup that allures.
Dare Robinson and Leykauf, the Barr
street butcher, had a spirited tariff ar-
gument on the market space this morn-
ing.
Complaint is made that a number of
people seek admission to the hospitals
who should be out ditching. They know
a soft snap.
A stern looking female in silk bloomers
a la Dr. Mary Walker, is in the city and
afforded the feminine world great amuse-
ment while men stared at it very hard.
The St. Joseph annual conference of
the U. B. church will convene at Pack-
town, Koscusko county, Wednesday,

side.

a carriage in the procession with two
other congressmen.

and James Depler employed as detec-
tives to secure the conviction of saloon
keepers who violate the law. A half
dozen vendors were fined this week for
dispensing liquor on the Sabbath day,
which should be kept holy.
The council continues to grind out
contracts for sewer and sidewalk im-
provements at a wholesale rate. Poor
people who are working half the time,
and may have no work at all, cannot
pay for this work and it is a crime to
saddle it on them. Mayor Muhler should
look into this matter.
The canoe club will go on their annual
excursion to-morrow, leaving at 8:00 and
returning at midnight. It will be purely
a club affair for canoe club members
only, of which there are six enrolled. As
everything this organization undertakes
seems to be successful, a full turnout and
a jolly good time may be anticipated.
The trouble between Ernest Gerke
and Officer Fuchshuber will be investi-
gated by Mayor Muhler to-morrow
morning. Young Gerke is confined to
his bed and his friends are bitter against
Officer Fuchshuber, who, they say,
should have looked Gerke up if he had
committed an offense. Officer Fuch-
shuber will be heard from and unques-
tionably will justify himself.

one man in ten can stand the work of a

and Martin has skipped the state.
The school houses of Wayne township
have received a general cleaning and
whitewashing in order to make them
healthy for the young folks who will at-
tend school on the 7th of September.

cational interests entrusted to him.
Wm. Van Horn sued Elizabeth Van
Horn for divorce. He says the woman
called him the baseliest kind of names
and at times abandoned him. The people
live in Madison township, and the plain-
tiff has employed E. W. Meeks and
Coombs, Bell & Morris to represent him.
"Charles Oke, of the Jenney Electric
light company, is in the city looking
after the company's interests.—J. F.
Wing, an architect of Fort Wayne, is in
the city. Mr. Wing is the same gentle-
man that made the plans for the new
block on the Lewis corner," says the
Huntington Herald.
"The Twelfth Indiana cavalry will at-
tend the reunion at Fort Wayne, August
19 to 24, inclusive, and there expect to
organize for a reunion next year. All
members of the Twelfth are earnestly re-
quested to attend and quarters and ra-
tions will be furnished to all old soldiers
who attend," says the *Logansport Pharos*.
"Are rents coming down?" was asked
of a real estate man yesterday. "Not as
a rule," was the reply. "The time is
approaching and is near at hand when
the demand for houses will be greatly
increased, and it will be much easier to
secure our prices in the fall, than it
would by bringing rentals down to any
considerable extent now and then al-
lance prices in the fall. No, rents will
not take a general tumble in the fall."
The *Warsaw Times*, Gen. Hugh Wil-
liams' paper, pronounces the LaPorte
encampment a failure. It says: "The
soldiers encampment at LaPorte is not
the success that the residents of that
city were led to suspect when they con-
tributed fifteen hundred dollars for re-
creating the attraction. Hardly more than
three hundred soldiers are in camp, and
the bad weather of the fore part of the
week dampened their ardor very much.
Governor Gray's staff, it seems, outnum-
bered the men that went into camp, we
understand, and the whole thing was a
failure."

The Muncie *Daily Reporter* has sus-
pended. The Knights of Labor boy-
cotted the sheet.
Councilman Prentiss goes to Louis-
ville, Ky., to-morrow morning to attend
the southern exposition.

Louis Limestone and Chas. Rogers for
violation of the Sunday liquor law.
Miss Flora Felts, sister of the County
Superintendent Felts, is the guest of
her brother at Bolton Harbor, Mich.

moved from the Wahash copper-smith
shop to the boiler department, in order
to give more room to the tin smiths.

Bro., wagon manufacturers, of this city,

an old store building at No. 60 Columbia
street. It threatens to tumble down and
the city might be liable if it did not act
promptly.
The indications for the lower lake re-
gion, as reported by the weather bureau
at Washington to *THE SENTINEL* are as
follows: Local rains; variable winds,
generally southeasterly; nearly station-
ary temperature.
Among the papers to be read at the con-
vention of florists, now in session at Cin-
cinnati, is one from the Messrs. Markey,
who keep extensive flower beds on West
Jefferson street, and at their suburban
farm. The young men are celebrated in
their business.

Moser, owner of a half interest in the
Mayville grist mill. The demand is
\$300 wages due. Frank Eckles files a
claim under Stringfellow's and asks for

First Regiment and the G. A. R. re-
union to be held at Fort Wayne from
the 19th to the 24th of August. They

on which the sham battle will be held,"

Allen Dougal attended a meeting of
the Women's Christian Temperance
union yesterday and deprecated their
action in announcing that liquor would
be sold on the grounds, during the re-
union, when such a thing was never con-
templated. The ladies promised a re-
traction, but it has not appeared.
A surprise party is a success when
the recipient is taken unawares. This
was the case when the friends of Mr.
Frank Sordet called on the evening of
his 25th birthday anniversary and found
he was not at home. Entrance was
gained however to the house and all en-
joyed music and dancing till almost day-
light.
William Kaough, John B. Monning,
Fred C. Boltz, Joseph H. Brimmer and
All Fry to-day interviewed business
men, urging them to participate in the
industrial parade, Saturday, August 22,
during the encampment. They met
with much encouragement and the dis-
play will be a great feature of the re-
union.
The *Gazette* takes a suspicious inter-
est in Marsh Wines, but the law said
about him the better it is for the gentle-
man and the *Gazette*. No where in the
east survey report is Judge Lowry men-
tioned, except as chairman of the investi-
gating committee, and *THE SENTINEL*
defines the *Gazette* or its Washington cor-
respondent to point to a moment of
Freeman Green's official working hours
that was given to Judge Lowry's service.
The *Gazette* has not made a direct
charge. It only hints at and skulks be-
hind evasive questions and answers. The
Gazette should not permit the little pos-
sible matter to stand in the way of a re-
traction.
A very excited meeting was held Mon-
day evening by the board of trustees of
west Indianapolis. The chief object of
the meeting was to consider certain
propositions of the Jenney Electric
light company. The company proposed
to establish a manufactory of dynamos,
electric apparatus and lamps in the town
on condition that the town government
would pay \$2,800 per year for eighteen
electric lights to be supplied by itself.
The street car company offered to pay
\$200 of this money. The contract was
to be for one year, with the privilege of
two more years on the same terms, and
\$2,800 was to be refunded if the factory
should not be established. The matter
comes up again Friday evening, but will
be defeated.
"Adam, the goodliest man of men
since born," still could not be called ex-
actly curable, for when he filled the
ground in the dewy twilight and caught
a sharp of rheumatism, he had no Salva-
tion Oil for his cure and no twenty-five
cents to buy it.

UNCLE SAM'S SAFE.
The Hamilton National Bank
Designated as a United States
Depository.
Hon. Daniel Manning, secretary of the
treasury, has designated the Hamilton
National bank, of this city, as a de-
pository for United States monies disbursed
in this part of the state by agents and
representatives of the government.
Heretofore the money was lodged in the
sub-treasury at Chicago, but the order
transfers it here. The bank officers have
to file \$50,000 United States bonds with
the national treasury to secure the privi-
lege, but as they have \$50,000 in
bonds there already in addition to their
\$200,000 bonds to secure circulation, it is
only necessary to transfer \$50,000 of the
sum to the treasurer for the purpose
named. This is the first time on record
a Fort Wayne bank has had this privi-
lege and it is quite a note, as it is in the
nature of a sub-treasury.
Going for the Corners.
The Marion county commissioners
have been, on the opinion of their attor-
ney, cutting down the coronal bills. One
item the attorney has decided against, is
that of charging for two inquests on the
same day. He thinks the coroner should
be allowed fees for but one, and under
this ruling the July account of that offi-
cer was reduced from \$135 to \$181.
The coroner has submitted to several re-
ductions of this kind, but when they
aggregate \$50 or more he will begin suit
for recovery in the circuit court.
The Kokomo Collectors.
The agitation over the internal re-
venue collectors for this district has at
last been settled, as Mr. Kirkpatrick will
give up the office to Mr. J. O. Hendler-
son to-morrow. For some time he has
said he would not give up the place
without a contest, but he seems to have
relinquished to the inevitable.
The Canoe Club Sail.
If the weather is favorable to-morrow
at Rome City, the feature of the day will
be the Canoe club sailing races. These
races will be had on water without fail,
so as not to interfere with any bicycle
races on land.

speaking of Parker's Tonic. It tells on
its merits and cures by its virtues. No

and all troubles of the bowels, liver and
kidneys it is exactly what you want, for
